Globalized Products

Name: _____

Section: _____

Score: ____/5

Directions: Find 10 products around your home and use the internet to find out where the product's headquarters are located, and then where the product is manufactured. All products must be school appropriate.

Part 1: Finding the Products

	<u>Product</u>	<u>Company(Headquarters Location)</u>	<u>Country of Manufacturing</u>
<i>Example:</i>	<i>iPhone</i>	<i>Apple (USA)</i>	<i>Made in China</i>

8.			
9.			
10.			

Part 2: Mapping your results

Directions: On the map on the reverse side of this paper map out your results. Use one color to signify a country where one of your products is made, use another to signify the location of a company headquarters. Ensure you make a key to signify what each color means. In countries where there are both a product made, and a headquarters located there color half the country one color, then the other half as the other color.
