-  High School

Go to [Who Am I](#).

Complete the following surveys:

## Learning Styles

How do you use your brain? Do you remember what you read? Are you good at remembering names? Each of us has a different learning style. What's yours?

## Personality

You are a unique individual; but we all have personality traits that are similar to others. Understand your personality to find opportunities that fit your type well.

## Interests

What captures your interest? When you're doing the stuff you enjoy and are interested in, you'll be happier and more successful in life.

## Knowledge

What subjects do you love? We all have at least one class that we look forward to. Whatever subject it is, if you like it, you can probably find a career in it.

## Motivations

Do you want to make a lasting impact? Is independence important to you? When you know what drives you, you can look for opportunities that fulfill your career objectives.

### Assignment:

For this self-reflection, you will need to submit the results of each survey you completed in myBlueprint on Learning Styles.

In addition to your survey results, you will need to answer the self-reflection questions below about Learning Styles and include them in your presentation. Please be creative in your submission. You can create a small presentation using a tool of your choice (think prezzi, ppt, photo journal, social media tools, etc.)

- 1. Which survey in myBlueprint did you find the most interesting and useful? Why?**
- 2. Did you learn anything about your personal learning style through completion of any of the surveys?**
- 3. How does your personal learning style impact the way you learn in and out of the classroom? Do you think your learning style has an impact of the career paths you might be interested in?**

Use the "Learning Styles Rubric" to help guide you in what you will be assessed on for this assignment.
