

Scoring & Results

Add up one point for each of your answers, in the right category. The one with more points is your preference within each scale.

If the scores are tied, you are perhaps still defining (or redefining) an aspect of your personality. You should give yourself more time (a few months or so) and then try again.

E/I Scale

Extroverted (E): 1A, 5A, 9A, 13A, 17A, 21A, 25A, 29A, 33A, 37A, 41A, 45A, 49A, 53A
